*W*ilbert Memorials is a division of Wilbert Funeral Services, a leading supplier to the funeral industry for over 80 years. It is our mission to provide unparalleled value to you and the families you serve by offering the highest quality products and superior local service.

Wilbert Memorials, in conjunction with local Wilbert certified providers, offers a range of memorialization and cemetery enrichment products as outlined in this catalog. These products are manufactured by skilled craftsmen using the highest quality granite. We also offer a range of local services in support of your business including setting the columbarium and mausoleum foundation, personalizing the niche shutters and supporting the niche-side or crypt-side interment service.

This catalog highlights a group of pre-selected, ready-to-install products in various granite color combinations as well as the option to develop custom products, cemetery gardens, and other features. You can order any of the traditional products by simply selecting the model and granite color combination or you can work with our experienced design staff to complete a customized order.

 Attached Base  
 Two Stainless Steel Cylinder Urns

Overall Dimensions  
 60" x 16" x 22"  
 Bore Hole Dimensions  
 6" x 8"

# OSSUARY

An ossuary provides a large underground container with an opening aboveground. Cremated remains are placed in the container through a cylinder and are co-mingled with other cremated remains. A tablet or other form for recording the deceased's name is nearby for memorializing the loved one. An ossuary provides families with a permanent, dignified, secure, visible memorial that is environmentally friendly. The ossuary also tends to be one of the more economical ways of final disposition of cremated remains. An underground ossuary can also be an alternative to aboveground scattering gardens. To help with the design and pricing of the ossuary please consider the preferred site, size and aboveground access point.

## CUSTOMIZED PROPERTY & GARDEN DEVELOPMENT

Our design team can assist you with creating a cost effective solution for undeveloped property. Given a general list of specifications and goals, we can recommend a design complete with the right products and features to yield the targeted results. Our selection of traditional or custom designed columbarium can be combined with benches, vases, statuary, and osuary to meet your specific needs. The most effective cremation garden incorporates a variety of products allowing families to choose a memorial option most fitting to commemorate their loved one's life.

Simply provide the details and goals of your property development project and we will prepare a proposal with a price quote. Items for you to consider include the area to be used, acreage, accessibility, product options and size (such as the number of niche spaces), and other features.

### Planning for Development of Garden

Fountain Feature

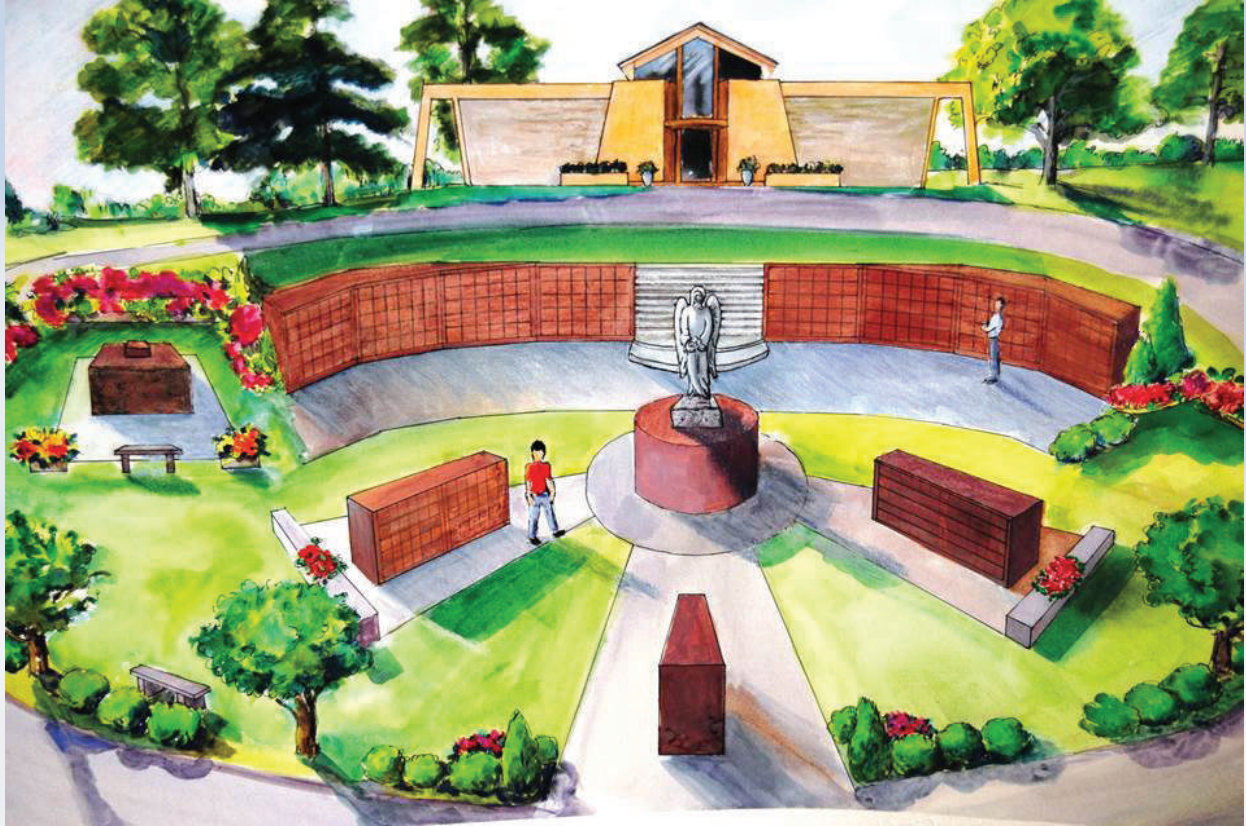

Water Feature

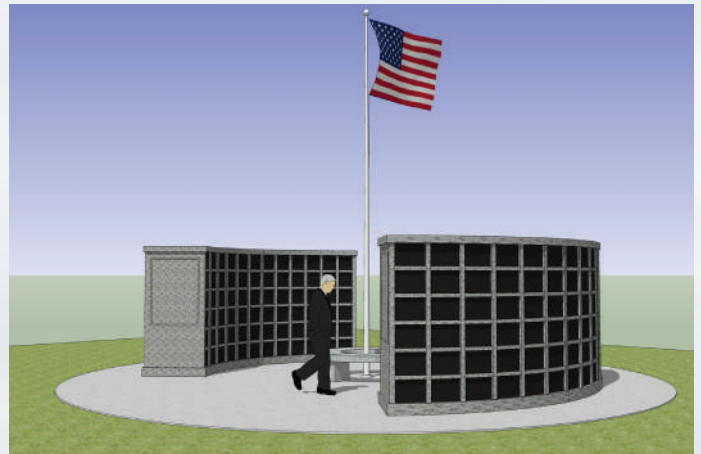

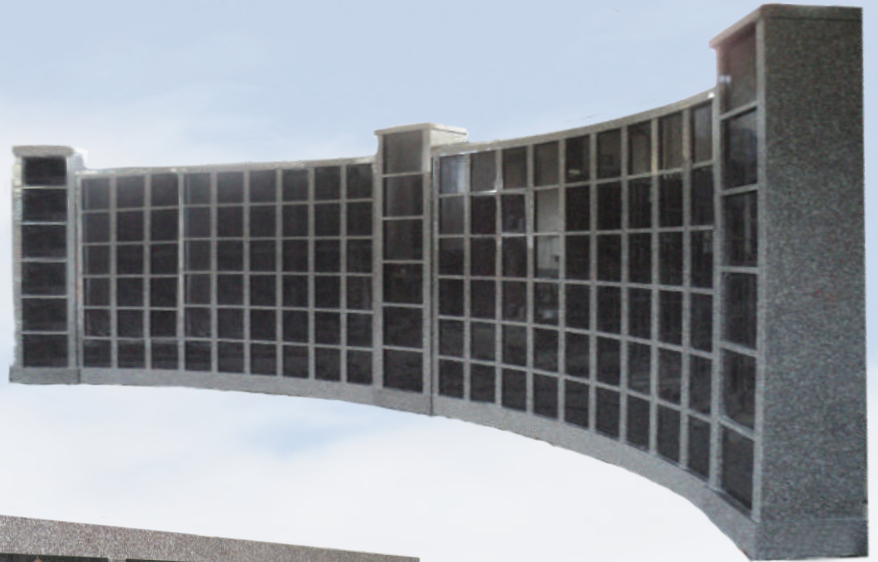

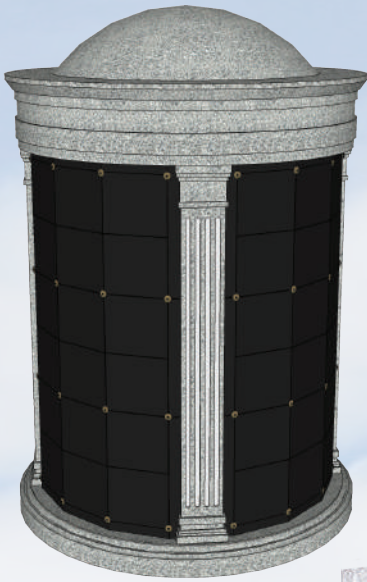

# CUSTOMIZED PROPERTY & GARDEN DEVELOPMENT

Wilbert Memorials can often provide a complete color rendering to scale of the property to be developed to assist pre-construction sales.

## CUSTOM PRODUCTS

Along with the pre-selected granite products found in this catalog, we have the ability to customize items within any of the major product categories (columbarium, mausoleum, urn pedestal, statuary or bench). Whether to match an existing piece or a specific design, our experienced staff can produce the desired product.

# RANGE OF ADDITIONAL SERVICES

(Where Available)

- Installation of Columbarium or Mausoleum Foundation
- Cemetery Lettering Services for Niche or Crypt Covers
- Laser Etching Service on Black Niche or Crypt Covers
- Cremation Memorial Services (Niche-side or Crypt-side)
- Sealing Service
- Installation of Bronze Niche Plaque
- Installation of Vase Holder
